

# LOCAL OUTCOMES IMPROVEMENT PLAN

## 2024 - 2027

growthwellbeingfairnesssustainability

# Introduction

*East Ayrshire is a place with strong, safe, vibrant communities where everyone has a good quality of life and access to opportunities, chances and high quality services which are sustainable, accessible and meet people's needs.*

**East Ayrshire Community Plan** is recognised by all Community Planning Partners as the sovereign strategic planning document for the delivery of public services across the local area. The Community Plan is our plan for place and sets out how we will work to realise our shared Vision for our communities over the fifteen years, 2015 to 2030.

This Local Outcomes Improvement Plan (LOIP) sets out the performance management framework which allows us to account publicly to our communities for community planning in East Ayrshire and the work that we are doing together to tackle inequalities.

Our LOIP is reviewed and refreshed in a three yearly rolling review cycle, which ensures that it continues to reflect the needs and aspirations of our communities.

This LOIP has been developed for the three year reporting period 2024-2027 to

- Demonstrate our understanding of local needs, circumstances and aspirations
- Link this understanding to the key, high level priority outcomes that we are working in partnership to achieve through our agreed thematic Delivery Plans
- Set out the identified performance measures that will allow us to demonstrate our ambitions for our local communities and our impact in meeting these ambitions.

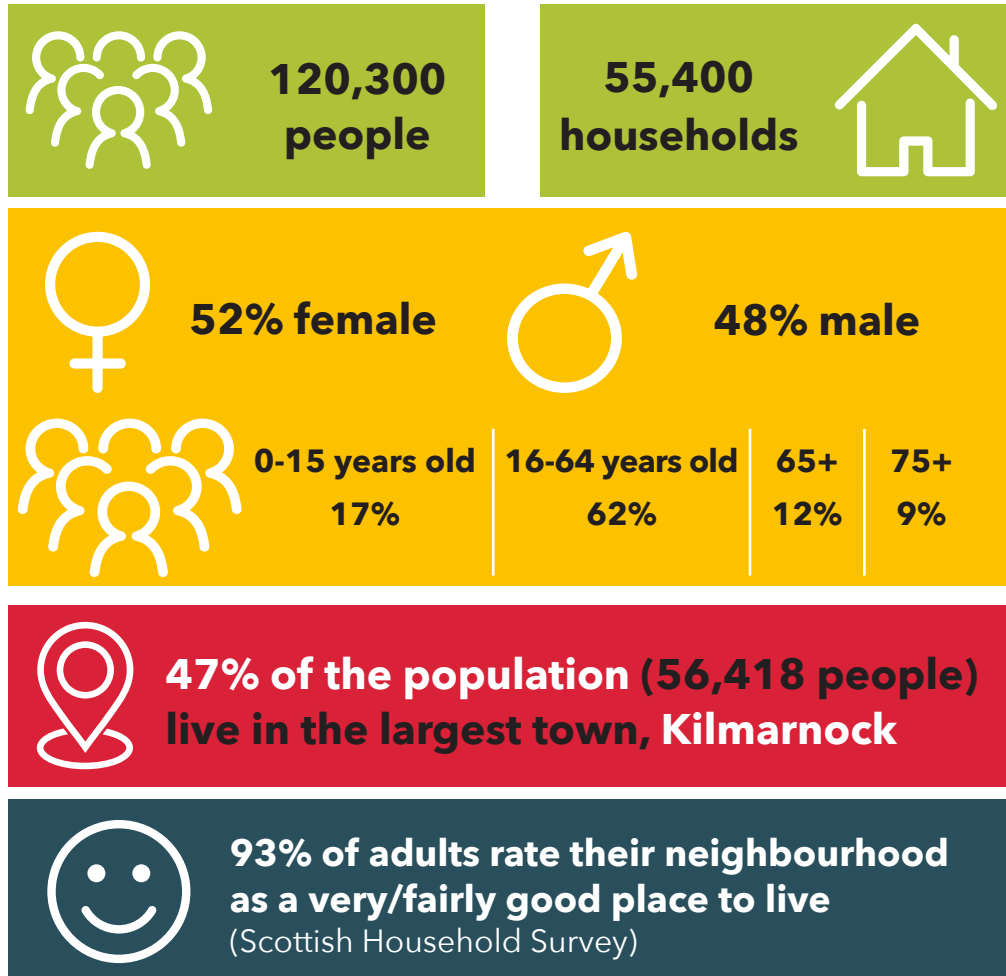

Community Plan

# UNDERSTANDING EAST AYRSHIRE

## People and Place

East Ayrshire is characterised by strong and active communities, spread across a diverse urban and rural landscape.

More detailed statistical information about the area may be found at [eastayrshirebynumbers](http://eastayrshirebynumbers)

However social, economic and health inequalities continue to exist within and between our communities.

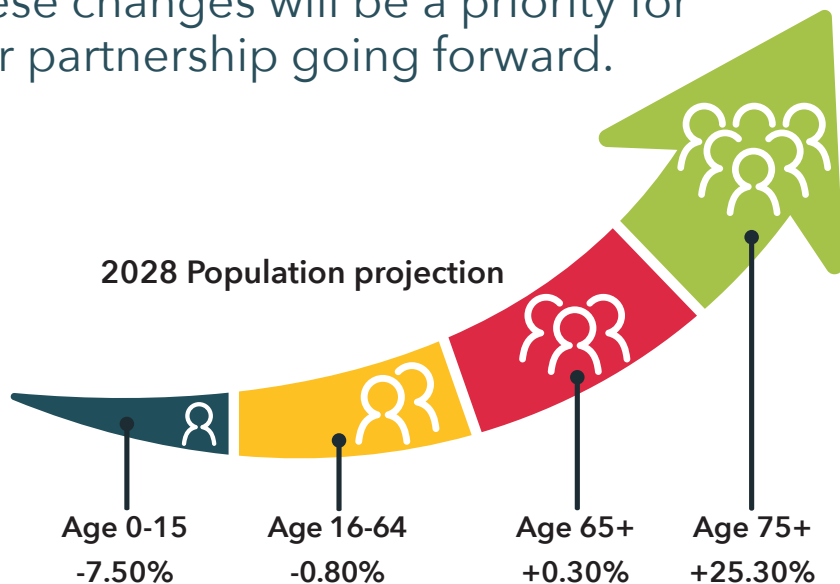

# We also know that our population is changing...

Overall, the population of East Ayrshire is projected to decrease by 1.7% (2,124 people) between 2018 and 2028, compared to a projected increase of 1.8% for Scotland as a whole.

However if we look in more detail at different communities across East Ayrshire, we see that population change will vary, with some areas in the south of the authority area expected to see their populations decrease by 16%, and other areas in the north predicted to increase by up to 13%.

East Ayrshire also has an aging population. Between 2018 and 2028, the 75 and over age group is projected to see the largest percentage increase and it is anticipated that this aging trend will continue, with fewer births and more people living longer.

Understanding and responding to these changes will be a priority for our partnership going forward.

# UNDERSTANDING EAST AYRSHIRE Community Voices

“  
75% of adults view climate change as an 'immediate and urgent problem'

“  
59% of Male, 46% Female adults feel very strongly a sense of belonging to their community

“  
19% of adults of have some of the time felt lonely in the past week

“  
89% agree that East Ayrshire is a place where people are kind to each other

“  
80% of adults feel very/fairly safe walking alone in their neighbourhood after dark

“  
77% agree that in East Ayrshire local people take action to help improve the neighbourhood

# UNDERSTANDING EAST AYRSHIRE

## Community Voices

*Listening to local people adds to the body of statistical evidence that we hold as a partnership and helps us to make sense of it in a local context.*

Effective participation by local people and communities is embedded in Community Planning in East Ayrshire. This strengthens our understanding of the distinctive needs of our communities of place and interest, and involves local people and communities in the decisions which affect their lives.

Our communities are directly represented on our Community Planning and Partnership Board by five local elected members and by four nominated community representatives, linked in to our network of Community Councils and Community Action Plan Steering Groups.

The Community Action Plans, developed by our local communities themselves, provide the foundation of our locality planning approach in East Ayrshire, with 'wrap around' tailored public sector provision, aligned to the three Health and Social Care localities, Northern, Kilmarnock and Southern.

More information about the [community and stakeholder engagement](#) that has informed the development of our priorities for the next 3 years can be found on our website.

***We have now identified our shared priorities for 2024-2027 and are working closely with local stakeholders to develop shared solutions that we can deliver together.***

# OUR SHARED PRIORITIES FOR 2024-2027

## Growth

Sustained economic growth remains central to our ambitions for East Ayrshire, and we will work in partnership to deliver the education and skills reform needed to allow us to grow our own future workforce.

## Fairness

Community Planning in East Ayrshire is at its heart about addressing inequalities, but the flip side of this is wanting to build a more equitable society where everyone has a chance in life and people feel safe.

## Wellbeing

Population health is fundamental to the achievement of our ambitions for East Ayrshire and we will continue to take a life-course approach to improving health and wellbeing.

**Starting Well - Living Well - Aging Well - Dying Well**

## Sustainability

This cross cutting priority captures several different but complimentary challenges that we now face - the sustainability and resilience of our communities, of our environment and of the partnership services that we deliver.

More information about these priorities may be found in the [Community Plan Review Supplement 2024-2027](#).

---

## Understanding the Impact of our Work

The work that we will do in partnership to achieve these priorities is set out in our [thematic Delivery Plans 2024-2027](#).

This work is monitored by members of our CP Executive Officers' Group and reported annually to our CPP Board, Elected Members of East Ayrshire Council and our wider communities.

The data that we will use to help us to understand the impact of this work are set out in the indicator tables which follow.

More information on how these indicators link to the national performance framework may be found at [eastayrshirecommunityplan.org](http://eastayrshirecommunityplan.org)
